OMAN

IRAN VIRTUAL **EXPO**

Exhibitor Digital Book
First Iran-Oman Exhibition
20th - 26th Sep. 2021

H.E. ENG. Radha bin Saleh
Chairman of **OCCI**

Dear Participants

The Omani-Iranian International Virtual Exhibition is a means of documenting and strengthening Omani and Iranian relations, and promoting trade exchange, which comes in cooperation and coordination with the Iranian-Omani Joint Chamber of Commerce, through which we guarantee the investment of modern technologies towards improving business and opening markets to Omani and Iranian products alike, in light of the economic conditions that the world is suffering from as a result of the Corona pandemic.

This exhibition comes from the standpoint of the historical economic and trade relations and the means of cooperation that link the Sultanate of Oman with the friendly Islamic Republic of Iran, to strengthen the bonds of cooperation and economic exchange between the two countries and to complement the positive and tangible results on the economic sector achieved by the efforts exerted in the two countries.

We affirm our keenness and support towards keeping pace with economic changes and benefiting from the current conditions in line with visions, strategies, plans and directions. And we are determined to work by all available means towards opening new horizons and creating a diversified economic environment for the private sector, that enhances the growth of institutions and contributes directly to providing them with experiences and expertise. This exhibition is part of these efforts, which we hope will be crowned with success, God willing.

In conclusion, we firmly believe that the exhibition has other long term goals, including enhancing communication, economic and commercial cooperation among the participants, discussing the possibility of adopting commercial and investment partnerships between them, and learning about experiences and exchanging it..

Best Regards,
Radha bin Saleh
Chairman

IROMCC

H.E.Eng Mohsen Zarrabi President of IROMCC

Dear Participant:

With respect to the long- lasting political relationship between the two brothers countries, Iran and Oman, cultural and regional proximity, great industrial infrastructures in both countries and especially the pivotal policy of Iran for expanding and strengthening relations with the neighboring countries and the close cooperation between Iran-Oman chamber of Commerce and OCCI, developing trade relationship between the private sector of Iran and Oman in different sectors, is one of the main strategic goals of Iran - Oman Chamber of Commerce and Oman chamber of Commerce & Industry.

In this regards, due to the outbreak of the Corona pandemic and the restrictions which leads to the impossibility of the presence of the two countries economic actors in specialized exhibitions in Oman and Iran during the recent 17 months, Iran- Oman Chamber of Commerce (IROMCC), as the Iran private sector parliament in Oman, with almost 300 active members, in close cooperation with Oman Chamber of Commerce & Industries (OCCI), is going to hold the "First Iran - Oman Virtual Exhibition" in the context of cyberspace from 20th – 26th Sep. 2021.

As far as Oman total import during the 2020, was about bn \$24 and Iran export to Oman during the same period was about ml \$438, Iran market share in Oman was only %1.8, in a way that Iran has the comparative advantage in many products that can be reached to our brothers in Oman with the lowest price (due to the geographic distance) and high quality while Omani companies have no knowledge about these Iran potentials.

On the other hand, Iranian companies are not familiar with Oman products that can be imported directly from Oman and also Omani trading companies that can support them in importing needed goods, while the Iran import market in 2020 was about bn \$39, that Oman has the lowest market share in compare with other neighboring countries.

So, with respect to the great potentials of the companies located in Oman, this event is a great opportunity to introduce Oman products and services as well.

I hope that, with respect to the great potentials of the both countries, holding this event will contribute to achieve better and closed ties between the companies and business circles of the both sides and will help to boost higher business transaction.

To this end, the success of all participants at this event would be my very great wishes.

**Best Regards,
Mohsen Zarrabi
President**

IRAN OMAN CHAMBER OF COMMERCE

> Introduction:

Iran-Oman Chamber of Commerce with the aim of setting up economic and trade relationship between the two countries private sector, as an official entity, has been formed in order to facilitate trade transactions, upgrading the economic exchange volume, joint investment in both countries, facilitating access to the third markets and re-export through the Oman and reciprocal introducing the economic potentials and competitive advantages of Iran.

Therefore, in order to achieve the above goals and defined mission, Iran-Oman trade Council formed in 2005, and due to the importance of Oman, in accordance with the law and decree of the Islamic Republic of Iran Parliament and with the approval of the Supreme Council of Iran Chamber of Commerce, Industries, Mines & Agriculture (ICCIMA), In 2013, Iran-Oman trade Council was promoted to the Iran - Oman Chamber of Commerce (IROMCC). IROMCC, as an independent legal entity, in accordance with the ICCIMA, is the strategies regulator for developing commercial relations between the two countries' and increasing the volume of mutual investments.

Iran-Oman Chamber of Commerce, with more than 400 active and accredited members, and the elected board of directors, is a registered, legal and independent body governed by the law, in a way that all economic relations between the private sector of Iran and Oman, are managed by this Chamber.

**Kerman Industrial Estates Co.
(Platinum)**

**Sirjan Jahan Steel Complex
(SJSCO)
(Silver)**

**Kerman Chamber of
Commerce, Industries, Mines &
Agriculture (KCCIMA)
(Gold)**

PLATINUM SPONSOR

Kerman Industrial Estates Co.

Majid Ghaffari
CEO. KIECO

➤ Introduction:

Settlement of industries in industrial estates has been pursued with the aim of providing infrastructures needed for ability manifestation of different industries.

The benefits of investing in industrial estates:

- 1 Exception to rule municipalities
- 2 Expedite the free licensing of construction and finish work in industrial estates and regions
- 3 Transfer of the affairs and management of industrial estates to service companies of industrialists.
- 4 Reducing investment costs due to use of common infrastructure services (water- electricity- telecommunication- gas and wastewater treatment)
- 5 Industrial zoning based on the location and design of industrial estates and regions according to engineering and technical principles and the latest construction methods of industrial estates.
- 6 Providing additional features such as green space ,public and welfare services ,consulting service offices ...

Small industries development

Establishment and supporting small and medium-sized enterprises is one of the main priorities of economic development programs in many developed and newly developed countries.

Small and medium-sized enterprises are more flexible and more entrepreneurship and creativity. They also attract and employ a large part of the country's population and train skilled labor.

Therefore, to develop small industries, Iran Small Industries and Industries Park Organization (ISIPO) was established as a responsible and supportive institution of these industrial units.

Contribution to the establishment and development of small industries, entrepreneurship development, technology development, making a suitable link between small and medium and large industries, developing of industrial networks and clusters, developing of information centers, market support and economic cooperation, and establishing and developing industrial estates and zones are the tasks of this organization.

The most important activities of small industries department

- Training of industrial units in industrial estates and regions (entrepreneurship, skills, management) with the aim of enabling industrial units
 - Supporting industrial tours and exhibitions aimed at empowering and exchange of experiences among managers of industrial units with the top industrial units
 - Sponsorship for postgraduate thesis with the aim of resolving the problems of small businesses and industrial estates and strengthening of the university-industry relations.
 - Implementation of technical and credit assistance plan, modernization and reconstruction of industries in order to finance small industries and increase productivity
-

Kerman Industrial Estates Co.

PLATINUM SPONSOR

- **Providing** the collateral deficit required for banking facilities of small industry through the Small Industries Investment Guarantee Fund
- Business development of industrial clusters
- Helping to small businesses market development
- Establishment and development of technology centers and parks
- Regional tech-mart
- Skills training centers in order to improve the skill level of employees of industrial units.

Industrial estates' company of Kerman province

In order to create coordination and optimal use of industrial estates, to provide more infrastructure facilities and essential services for applicants of industrial units and to prepare supportive conditions for industry development, Kerman Industrial Estates Company was established in 1369 AH and started its activities.

Currently, this company, with 44 industrial estates and zones, has been able to provide an effective step in presenting the services required by various industry sectors.

GOLD SPONSOR

**Kerman Chamber of Commerce,
Industries/Mines&Agriculture
Mehdi Tabib Zadeh
President of KCCIMA**

> Introduction:

Kerman Chamber of Commerce, Industries, Mines and Agriculture (KCCIMA) as a branch of Iran Chamber of Commerce, Industries, Mines and Agriculture (ICCIMA) is a non-profit membership organization established in 1908. Its mission is to promote the development of local business, and commercial relationships between chamber's members and business people of other countries. Moreover, Kerman Chamber takes benefit from local potential in favor of investment promotion.

Some of these strengths are as below:

Agriculture:

As far as %14 Iran fruit gardens located in this province, and with respect to the noticeable agricultural products in Kerman such as dates, pistachio, citrus, walnuts, greenhouse crops, vegetables, flowers and plants, Kerman province is ranked 1st to 4th in the country, furthermore, there are 124 kinds of crops can be cultivated in the province as well.

Mines

Kerman province is called paradise of mines, 42 kinds of minerals have been discovered in the province which most notable ones are copper, iron, coal, lead and zinc. Kerman province is also enriched with abundance of decorative stones.

Industries:

Among the most important industries in the province, three cement plants, rubber industries, vegetable oil, aluminum, copper, automotive industries, wagon making industries, textile, and agricultural product processing industries, coke, steel industries, coal tar factories, steel factories, Golgozar Mining and Industrial Company and many other small and large- sized industries are paramount. Automotive factories such as Kerman motor, Rayen Khodro, Rigan Kkhodro and Modiran Khodro made the province one of the main leading automotive zones.

Transportation.

5 active airports in Kerman, rail network, more than 1519 kilometers of main roads, 1986 kilometers of highways and 56 kilometers of freeways have paved the way for transporting products.

Health and medicine:

Performing a variety of surgeries such as beauty, heart, eyes, liver and kidney transplants, infertility treatment, treatment of various cancers, and bone marrow transplantation in Kerman province, and also constructing and equipping modern hospitals such as Bahonar, Payambar Azam, Arjmand, Mehrgan, Razieh Firooz and organ transplantation of Afzali pour hospital is a noticeable opportunity for investment in the sector of medical tourism.

Tourism

There are 720 registered archaeological records in Kerman which is a sign of civilization, culture and modernity.

Bam citadel (the oldest adobe building in the world dates back around 2500 years). Shahzadeh garden, Meymand village (dates back around 10000 years), Lut desert, Qanats in Goharriz of Joupar, Akbar Abad, Bam Qasem Abad and also city of Sirjan as a universal city of Galim are registered in UNISCO heritage list. Besides natural attractions and historical places, Kerman is famous for handicrafts in 74 traditional art grounds such as carpet weaving, pate weaving, rug wearing, knife smiting and copper items smiting.

SILVER SPONSOR

**Sirjan Jahan
Steel Complex (SJSCO)**

**Ali Abbasloo
CEO, SJSCO**

> **Introduction :**

Sirjan Jahan Steel Complex (SJSCO) has been established in 2009 and has started its activities in the field of steel industry since 2010 in Sirjan Gol-E-Gohar Mining & Industrial Area, to produce different kinds of steel products such as Sponge Iron, Steel Sections like Billet and Bloom and Rebar in order to complete the production cycle of this industry. The main shareholders are Gol-E-Gohar Mining & Industrial Company and National Iranian Copper Industries Company (NICICO).

Objectives:

Production of 7 million tons per year of Steel Products such as Sponge Iron(DRI), Billet/Bloom and long products such as Rebar, Sections and Seamless Pipes.

3 plants of Direct Reduction Iron with a production capacity of 3.7 million tons of sponge iron

2 plants of Steel Making with a production capacity of 2.5 million tons of steel Billet

2 plants of Alloy steel and Rebar with a production capacity of 0.8 million tons of steel Rebar and Alloy steel

Shareholders:

1. Gol-e Gohar Mining & Industrial Company, the owner of %51 of SJSCO which owns %45 of Iron ore of Iran
2. Institute of Iranian Copper Industries Pension Fund, the owner of %49 of SJSCO which is owned by National Iranian Copper Industries Company.

Geographical Location:

Sirjan Jahan Steel Complex is located in 55 KM far from southwest of Sirjan City in Kerman Province in Iran.

Comparative Advantages:

1. Supplying of Iron Ore Pellets directly from Gol-E-Gohar Pelletizing Plant by conveyor belt. thus, this cause reducing of transportation cost which is result is Cost Price.
 2. SJSCO is located near to the Persian Gulf and the high Seas, also it has access to National Railway to export its products.
 3. Existing national infrastructures such as Airport, Special Economical- Commercial Zone and Customs.
 4. Availability of specialists and skilled workers in Kerman region.
 5. Continuity of Supplying feeds material by G-E-G which has owned 45% of Iron Ore of Iran.

Salalah Free Zone

Oman

Field of Activity

Government Company, Attracting Investments

Detailed products or services

- ✓ 100% foreign ownership.
- ✓ 30-year tax exemption.
- ✓ Customs duties exemption.
- ✓ No minimum capital requirement
- ✓ One stop shop services & access to easy system for fast approval.

Work permits for 80% of foreign work force.

About Company

Salalah Free Zone, situated adjacent to Salalah Port, is managed and operated by Salalah Free Zone Company, a subsidiary of ASYAD, and is one of Oman's most important industrial hubs. The free zone is highly competitive in the region for labor, utilities and infrastructure costs, and located in close proximity to raw material sources and emerging markets. The close proximity of Salalah Free Zone to the air and sea ports acts as a catalyst for multi-modal connectivity ensuring seamless movement of goods, creating value chain integration opportunities. Key global markets are within 2 weeks sailing time, providing first class inbound and out bound port connectivity. The value proposition of Salalah Free Zone is further enhanced by having hinterland access to the populous Yemeni market. Strategically located on the main East-West Shipping Lane, Salalah provides the region's fastest access point to the wider Middle East, Indian Subcontinent and East Africa – markets worth more than USD 620 billion in goods and materials each year. Salalah Port is situated away from the Straits of Hormuz reducing overall freight costs. Salalah Free Zone recently pledged to speed up registration procedures for new investors to ensure they receive initial licenses within 60 minutes.

DCEO SOHAR Port

About Port & Free Zone

OHAR FREEZONE DRIVES THE SULTANATE OF OMAN'S DIVERSIFICATION PLANS

Facing the Arabian Sea with direct access to the Indian Ocean, SOHAR Freezone, one of the fastest growing in the world, has become a destination of choice for regional and international investors looking for an ideal Middle East hub for trade, commerce, and industry. Located adjacent to SOHAR Port, has positioned the Freezone as a logistics gateway integral to bringing in the requisite goods to clients relying on a steady flow of materials. The efforts to optimise every step of the process has been recognised within the industry. SOHAR has been a frequent winner at fDi Magazine's annual Free Zone of the Year awards, including taking the 'New Investments Award' and commendations for Infrastructure Improvements and Energy Independence in previous years.

The success is not a surprise; Oman's strategic position, abundance of land, existing Free Trade Agreement with the US, and a whole host of incentives have all combined to create a thriving complex which is incredibly attractive to investors. The Freezone allows 100% foreign ownership with 0% personal income tax and 0% import or re-export duties. Companies can enjoy a guaranteed 10-year exemption from corporate tax, normally 12% in Oman, and this can even be extended to 25 years.

It has cultivated an environment where business can flourish and prosper by providing a One-Stop-Shop for SMEs, Omani companies and international investors to set up and operate their businesses effectively. The Freezone supports tenants with company registration, licensing and permits, as well as tax exemption certificates and customs registration. Everything a company requires to get started and begin trading with the world. This diversification of industry is crucial to Oman's economic future and a priority set within the Vision 2040, and SOHAR Freezone will play a key role in achieving these goals. The ambition to create a thriving free zone in Suhar offered huge potential for economic transformation from the outset. SOHAR's abundance of energy, access to raw materials and world-class logistics, attractive utility rates, coupled with incentives provides a significant advantage for businesses that is sure to attract major players.
